180 BLOCK MASONRY HOMES
For Your Information...

The Home Building Plan Service is an organization which specializes in home planning and carries on a continuous study of home design, emphasizing comfort, beauty, utility and building economy. From this continuous application, from years of experience in this field and from cooperation with builders, this book has evolved.

Amateurs Succeed In Building
Once you have selected a home and ordered your plan you will find this same careful study apparent in your working blueprints. Builders often compliment us on our methods of detailing our plans, endorsing them as being unusually clear and simple. We have eliminated many old-fashioned principles of dimensioning and presentation which have proven inadequate. We are proud of the fact that even amateurs, with little or no previous experience, have undertaken to build their own homes from our plans and have succeeded.

Worldwide Popularity
The appeal and popularity of these designs is further evident from the fact that orders have been received from Canada and Mexico, from Alaska, Hawaii, Central and South America, from France, Belgium, Greece, Italy, Spain, Portugal, Norway, Sweden, from South Africa and Australia, and even from China. But most important to you is the fact that sturdy, pleasant homes have been successfully built in every state and section of our own country.

Successful Homes
These homes are successful from the standpoint of construction because they are planned to be sound, yet neither over-built nor under-built. They are successful from a financial standpoint because they are planned to be beautiful on their own merits, not because of expensive decoration and unusual costly features, which may be striking at first glance, but useless in the long run.

Find Your Dream Home
The following information describes the facilities and services that are available to you. Between these covers we feel sure that you can find a home that fits your requirements, your pocketbook and your dreams. In the foregoing paragraphs we explained our aims and our methods and gave you some idea as to the nature and extent of our business. Now, we assume you have selected your home and are ready to purchase the working blueprints.

Using Your Order Blank
First of all, on your order blank you will see a place for the plan number. Identification of each plan and variation throughout the book is clearly indicated by number. On some plans, such as 1120-P there are several variations which are identified by numbers 1120-AP, 1120-BP, 1120-CP, etc. If it is plan number 1120-CP that you wish to build, simply mark your order form 1120-CP in order to receive that variation of the basic plan 1120-P.

Material Lists Save Time
The next service listed is the itemized material list which is considered by many to be as important as the plans. In this list of materials, we not only give the amounts of material necessary to build the home, but we break them down into separate use such as joists, rafters, number of blocks, etc. This material list includes such things as millwork, shingles, flooring, lath and plaster, number of bricks and the other materials that go into the home. Even experienced contractors often buy these lists because their own cost in figuring material would exceed $5.00 and because they realize that we are more familiar with the plan and consequently will make a more accurate bill of materials.

Plumbing Diagrams
The typical plumbing and sewage disposal diagram is especially valuable to builders in suburban areas since it gives instructions for building cesspools and septic tank system and extent of drainage field necessary under certain conditions. It also shows in graphic form the various plumbing connections and arrangements throughout a house.

Typical Wiring Diagram, Installation Procedure, and Electrical Materials
This material is intended as a guide and method of informing people on the installation of wiring in their home. Detailed working plans are included showing various approved methods of wiring. A description of materials and instructions on how to undertake the job are covered in booklet form. A handy checklist is furnished for use in ordering materials, and advice on procedure in obtaining permits is prescribed. This is a valuable service to individuals, mechanics, and builders who desire a comprehensive and practical condensation of approved wiring practices and methods.

*Specifications
A description of materials to be used in construction is prepared on forms that are suited for use in obtaining an F.H.A. insured loan. These forms are patterned after the minimum property standards required when building under Federal Housing supervision.

Other Services
The space for extra sets of the plan you order is, of course, self-evident. Although you receive four sets of blueprints with your order, in some cases it is necessary to have an extra set or two of the plans. These various additions to the working plans are left optional to avoid extra costs to those who wish to order only the working blueprints.

THE FOLLOWING NUMBERS INDICATE SPECIAL FEATURES WHICH YOU WILL FIND IN THIS HOME:

1. Your television set is placed on a unique turntable arrangement which allows viewing from either the living room or the family room.
2. A barbecue pit that will add to the many hours of pleasure you will derive from your family room.
3. The fireplace hearth is a reinforced concrete slab raised 20" off the floor, with space below for wood and fireplace implements, a built-in conversation piece for your living room.
4. A two compartment bath with one section opening into the master bedroom.
5. An enclosed play yard, partly covered where the wee ones can cavort right under mother's eye as she works in her kitchen. This area is also convenient for summer evening gatherings of friends and neighbors.

YOU HAVE YOUR CHOICE OF BASEMENT OR UTILITY ROOM IN PLAN 1162 P. THE CUT-AWAY FLOOR PLAN AT LEFT SHOWS THE CHANGES WHICH TAKE PLACE WHEN YOU CHOOSE THE BASEMENT PLAN. NOTE THAT THE KITCHEN-DINETTE ROOM SIZE IS LARGER IN THE PLAN WITH BASEMENT.
SIMPLE IN DESIGN, YET THE LITTLE FEATURES SUCH AS THE COMBINATION OF BLOCK AND BRICK MASONRY TRIM AND THE BUILT-IN FLOWER BOX LIFTS THIS HOME OUT OF THE ORDINARY CLASS. INTERIOR IS WELL PLANNED WITH POPULAR KITCHEN-DINETTE COMBINATION. ALTERNATE PLAN SHOWS HOW HOUSE CAN BE BUILT WITHOUT A BASEMENT PLACING THE UTILITY AREA IN THE END OF THE GARAGE.
This storage room is a very important feature of Plan MA-1233. Its height varies from 4'-0" to 6'-9" and provides room for seasonal equipment and other seldom used items. Your children will love it as a hideaway for which reason we retain the room even in Plan M-1233.

AN UNUSUAL FEATURE IS PROVIDED IN THIS PLAN IN THE FORM OF AN ACTIVITY ROOM. THE AREA IS CONSIDERED AN ALL PURPOSE ROOM WHERE THE FAMILY WILL CARRY ON THEIR HOBBIES, ENTERTAINMENT, AND THE CHILDREN WILL PLAY. THE FLOOR OF THE RECREATION IS Poured CONCRETE SIMILAR TO THAT OF THE GARAGE OVER WHICH ASPHALT TILE IS LAID. THE WALLS ARE FINISHED IN KNOTTY PINE AND THE CEILING IS COVERED WITH ACOUSTICAL TILE.

ANOTHER DETAIL OF UNUSUAL CHARACTER IS THE VAULTED CEILING WHICH COVERS THE LIVING ROOM AND DINING ROOM AREA. LIKewise, THE BATHROOM IS ARRANGED IN AN ATTRACTIVE MANNER WHICH INCLUDES A BUILT-IN LAVATORY AND DRESSING TABLE, ALONG WITH AN EXCELLENT CONTROL OF TRAFFIC, AND A COMPACT ARRANGEMENT OF SPACIOUS ROOMS. THESE NEW IDEAS MAKE THIS PLAN TRULY MODERN.
SOMETHING DIFFERENT IN THE WAY OF EXTERIOR TREATMENT OF THE GABLE ENDS ON THIS HOME HAVE BEEN USED TO GIVE IT A MOST UNUSUAL APPEARANCE.

INCLUDED IN 1215 SQUARE FEET OF FLOOR SPACE ARE THREE BEDROOMS, BATHROOM, KITCHEN, DINETTE, LIVING ROOM AND UTILITY. THE ARRANGEMENT OF ROOMS IN THE HOME IS SO THAT TRAFFIC FROM BEDROOMS TO BATHROOM AND KITCHEN CAN BE HANDLED IN A CONVENIENT MANNER WITHOUT ENTERING THE LIVING ROOM. THE DINETTE HAS BEEN PLACED AT THE END OF THE ROOM SO THAT IT SERVES THE FAMILY IN A CONVENIENT AND EXPANDABLE MANNER.

FOR THOSE WHO DO NOT REQUIRE THE DOUBLE BATH, THIS SIMPLIFIED SINGLE BATH IS SHOWN AS AN ALTERNATE ON BOTH PLANS.
THIS TRIM LITTLE CONTEMPORARY DESIGN IS WELL SUITED TO EITHER CITY OR SUBURBAN CONSTRUCTION. COMPACT, ECONOMICAL TO BUILD, EASY TO HEAT AND MAINTAIN. IT IS A SIMPLE ANSWER TO HIGH COSTS. A CARPORT, AS ACCESSIBLE AS THIS ONE, REALLY DOES DOUBLE DUTY. BY NIGHT IT HOUSES THE FAMILY CAR AND DURING THE DAY AND EVENING IT PROVIDES A COOL COVERED OUTDOOR AREA IN WHICH THE CHILDREN CAN PLAY OR THE GROWN-UPS CAN ENTERTAIN.

Plan MA-1161
Same as Plan M-1161 except utility room instead of basement.

Plan MB-1161
Same as Plan M-1161 except utility room and lavatory instead of basement.
HERE ARE TWO FINE PLANS THAT WILL SATISFY THE NEEDS OF MANY PEOPLE WHO ARE SEARCHING FOR SMALL HOMES PATTERNED TO SUIT A VERY LOW COST BUDGET. THE SMALLER HOME IS ONLY 703 SQUARE FEET, YET IT CONTAINS EVERY FEATURE OF A WELL BALANCED, PROPERLY DESIGNED HOME. THE ROOMS ARE DESIGNED TO SUCH SIZE AND PROPORTIONS THAT THEY WILL BE GIVEN THE MINIMUM CONSIDERATION WHEN YOU SUBMIT THE BLUEPRINTS FOR YOUR LOAN. LIKewise, AFTER CONSTRUCTION, THE HOME BUILDER HIMSELF WILL BE VERY PLEASED WITH THE RESULTS OF HIS EFFORTS. PLAN NUMBER MA-1205 IS SLIGHTLY LARGER WITH 768 SQUARE FEET. BOTH PLANS CAN BOAST OF THEIR BACK-TO-BACK PLUMBING.
PLAN 1147 AP

WIDTH 49/4
DEPTH 24/8
902 SQUARE FEET

THIS PLAN IS AVAILABLE WITHOUT BASEMENT AS SHOWN ABOVE OR WITH BASEMENT DETAILED BELOW. ADDITIONAL STORAGE IS PROVIDED OVER THE GARAGE WHEN USING THE PLAN WITHOUT BASEMENT.

PLAN 1147 P

THE OVERALL DIMENSIONS AND SQUARE FOOTAGE OF THIS PLAN WITH BASEMENT ARE THE SAME AS PLAN ABOVE WITHOUT BASEMENT.

THIS TWO-BEDROOM HOME IS THE MOST ECONOMICAL OF ALL STYLES TO BUILD. PERFECTLY RECTANGULAR IN SHAPE, WITH ONE SUPPORTING MEMBER THROUGH THE CENTER, WITH STRAIGHT PITCHED ROOF AND CONSTRUCTED OF ECONOMICAL MASONRY UNITS IT OFFERS THE UTMOST IN SAVINGS TO THE BUILDER. WE SUGGEST A NATURAL CEDAR OR REDWOOD FINISH ON EXPOSED WOOD.
NEW HOME BUILDERS WILL BE HAPPY TO LEARN HOW WELL THIS ATTRACTIVE THREE-BEDROOM PLAN FITS EVEN A SMALL CITY LOT AS WELL AS LARGER SUBURBAN PROPERTIES. THE THREE BEDROOMS ACROSS THE REAR OF THE HOME ARE ALSO IN POPULAR DEMAND. THIS ARRANGEMENT ALSO PERMITS THE LOCATION OF THE LIVING ROOM, DINING ROOM, AND KITCHEN ACROSS THE FRONT OF THE BUILDING. NOTE THE CENTRAL HALLWAY WHICH HANDLES THE FLOW OF TRAFFIC SO WELL. SELDOM DO YOU FIND SUCH COMFORTABLE LIVING IN A PLAN OF ONLY 1295 SQUARE FEET.
PLAN 1120 P

The charming modern exterior pictured above is available with any one of the surrounding floor plans. The bedrooms and living rooms are all identical, the various changes taking place in the kitchen, utility, stairway & garage sections of the home, a more economical, compact, livable three-bedroom home will be hard to find. Plans 1120 AP & 1120 BP incorporate the work saving U-shaped kitchen which modern homemakers have found to be so pleasant and convenient. All four plans have large family dining areas in the kitchen.

PLAN 1120 AP

Width: 57/4
Depth: 42/4
1120 square feet

For the family which does not require or wish a basement, we offer plans 1120 AP & 1120 BP. Each plan features the same economical, compact arrangement with the addition of a large room for heat & laundry. If the heating unit is located as shown in the utility room, the fireplace chimney may be used, effecting a further saving. Notice should be taken of the excellent closets, not only in the bedrooms but in other parts of the home for linens, guest clothes, china, etc.

PLAN 1120 CP

Width: 56/0
Depth: 38/0
1083 square feet

Plans 1120 P above & 1120 CP to the right both have full basements. Each offers excellent opportunities for a party room or recreation room in the basement. Note that the rectangular shape of the buildings (contributing to economical construction) is skillfully concealed in the exterior appearance. These plans are economical not merely because of reduced floor area but because each square foot has been carefully utilized to the utmost.

PLAN 1120 BP

Width: 44/8
Depth: 31/4
1192 square feet

When ordering your plan use the plan number directly under the floor plan of your choice.
**PLAN 1171 AP**

**WIDTH:** 36'0"  
**DEPTH:** 44'0"  
**1296 SQUARE FEET**

Beautiful, modern lines emphasizing economy and simplicity feature the design of this home. There are no roof valleys on Plan 1171P and only one on Plan 1171AP, creating a very easy roof to frame, and yet, due to the clever use of the changing cornice line in front, the well balanced planting areas on either side of the living room picture window, and the interesting porch roof support, the square lines of the home are adequately concealed. Much can be said about the floor plan arrangement. Most useful is that access to the back hall and bath is easily had from any room in the house. To have both breakfast nook and dining room is also unusual in a home of this size. Each bedroom has at least eleven square feet of closet area and miscellaneous storage and clothes closets are to be found all over the house. You have noticed by now that the utility room in Plan 1171AP is a real work room complete with sink and counter space.

**PLAN 1171 P**

**WIDTH:** 36'0"  
**DEPTH:** 57'4"  
**1198 SQUARE FEET**
ONE OF THE MOST FUNCTIONAL ARRANGEMENTS IS PROVIDED IN THIS PLAN. AN ATTRACTIVE ENTRY HALL AND CENTRAL ACCESS WAY ALLOWS THE FAMILY TO WALK FROM THE KITCHEN TO BATH OR BEDROOMS WITHOUT PASSING THROUGH THE LIVING OR DINING ROOM. A DUAL PURPOSE BATH IS LOCATED OFF THE MASTER BEDROOM AND CENTRAL HALL. WORKING BLUEPRINTS ARE AVAILABLE FOR A PLAN WITH A BASEMENT OR UTILITY ROOM AS ILLUSTRATED.

ENTRY HALL FROM LIVING ROOM

PLAN MA-1106

WIDTH - 84'8
DEPTH - 32'0
1796 SQUARE FEET

This plan is also available with full basement.
The basement stairway replaces the large storage closet off the hallway. Order by number M-1106.
The popularity of this general arrangement has been apparent for some time, the only objection being size and cost. In this plan every effort was extended toward designing each room to be ample but not wasteful for the average family. The living quarters are neatly separated from the sleeping section, each, however, being accessible to the other through hallways, not by crossing from room to room. The lovely bathroom, with its built-in lavatory and dressing table is located so as to be convenient to both sleeping and living sections. Special care is always given to the kitchen arrangement in these plans. In this home the popular U-shape with a large breakfast nook at one side has been utilized. The bar between working area and nook serves double duty as a side table while dining. By careful consideration of each square foot of space this popular plan has been brought within range of many more moderate budgets.
The trim, modern exterior lines of this home are developed around a surprisingly compact interior designed especially to meet the problem of growing family plus moderate income, which for many has added up to high rent and unsatisfactory living conditions. This home has proven to be a much happier solution. The problem of a small lot was also kept in mind, the result being a three bedroom home which can be built on a 50-100 city lot. Placing the garage at the front of the building is another economy since a much shorter driveway is necessary, a point which is often overlooked. Built of durable masonry construction, this home will protect your family at a cost usually lower than rent.

The price of stock plans for this home is so reasonable that many people have purchased them for the purpose of obtaining estimates and bids to determine whether or not they can afford to build. The majority, pleasantly surprised at the comparatively low estimates, have gone ahead and are now comfortably established in their own homes.

THIS SMALL BUT ATTRACTIVE STARTER PLAN HAS BEEN DESIGNED TO PROVIDE A COMFORTABLE ONE BEDROOM ARRANGEMENT THAT CAN BE EXPANDED INTO A LARGER HOME WITH THREE BEDROOMS, ENTRY AND SEPARATE DINING ROOM. THIS CAN BE ACCOMPLISHED AT A LATER DATE WITHOUT MAJOR REMODELING. THE LARGER HOME IS BUILT FROM THE STARTER PLAN WITH A MINIMUM OF EFFORT INVOLVED. NO MAJOR CHANGES ARE NECESSARY. THE ORIGINAL PLUMBING, HEATING AND KITCHEN CABINET ARRANGEMENTS REMAIN THE SAME. WORKING BLUEPRINTS ARE FURNISHED FOR BOTH THE STARTER AND EXPANDED HOME WHEN AN ORDER IS PLACED FOR THIS PLAN.
PLAN M - 1059

IF YOU WOULD LIKE TO HAVE A HOME LIKE THE ONE PICTURED ABOVE BUT FEEL THAT IS IS BEYOND YOUR MEANS FOR THE PRESENT, WHY NOT START WITH THE SMALL UNIT PICTURED BELOW AND GRADUALLY EXPAND. COMPLETE PLANS SHOW YOU HOW TO DO THIS.

PLAN M - 1059

PLAN M - 1094

AS IN THE CASE OF PLAN M-1059 THIS PLAN IS ALSO DESIGNED WITH A SMALL UNIT TO BE LATER EXPANDED. YOUR ORDER WILL BRING YOU BLUEPRINTS FOR THE "STARTER HOUSE" AS WELL AS FOR THE LUXURIOUS FINISHED HOME.

PLAN M - 1094
LIVING ROOM, ENTRY HALL, DINING ROOM, KITCHEN, NOOK AND UTILITY ROOM ARE ALL LOCATED ON THE FRONT OF THIS RANCH STYLE HOME. THIS MAKES IT POSSIBLE TO HAVE THE THREE BEDROOMS AND BATH ON THE REAR SIDE OF THE HOME. A PLAN WITH OR WITHOUT BASEMENT IS AVAILABLE, THE LATTER HAVING AUTILITY ROOM. POPULAR DEMAND HAS ALSO PROMPTED THE DESIGN OF A THIRD ARRANGEMENT THAT PERMITS THE OWNER TO HAVE A SPACIOUS 10/0 x 12/0 UTILITY ROOM AS WELL AS A BASEMENT. WORKING BLUEPRINTS PREPARED TO THE BLOCK MODULE MAY BE OBTAINED. SEE THE ORDER FORM WHICH LISTS THE OTHER SERVICES THAT ARE ALSO AVAILABLE.
THREE BEDROOMS, EACH SEPARATED FROM THE OTHER BY TWO SPACIOUS AND COMFORTABLE BATHROOMS, ARE PROVIDED IN THIS COLORFUL WESTERN RANCH STYLE HOME. CHARACTERISTIC OF THIS STYLE IS THE COVERED WALKWAY WHICH LEADS TO THE FRONT ENTRY. NOTE THE LOCATION OF THE LIVING ROOM, ENTRY, DINING ROOM, KITCHEN ACROSS THE FRONT OF THE HOME WITH THE SLEEPING QUARTERS ARRANGED AT THE REAR.

In offering this service may we add this word of caution:

DO NOT BE MISLED into accepting inferior block which do not fully meet the most rigid Building Code requirements. In order that the building may remain beautiful and durable through the years, every masonry unit comprising the structure must be equal to its adjoining unit in highest quality. Good workmanship is essential in the construction of a weather tight block wall. The head and bed joints must be well filled with good mortar. Tooled mortar joints of a concave or V shape are recommended. Then — and only then — may you be assured that the weathering action of old Father Time can attack it to no avail. Homes built with Block will give you, lifetime satisfaction — firesafety — permanency — lasting beauty — storm safety — and are suitable for all climates.

THE AMERICAN STANDARDS ASSOCIATION in cooperation with the American Institute of Architects have developed a basis for the coordination of dimensions of Building Materials. Our company has adopted this recommendation of dimensions, and applies them to all Concrete Building Units. The plans presented in this book are all modular in dimensions which assures you a minimum of cutting and fitting on the job. Accurate and rapid construction by the builder and mason contractor is guaranteed when modular block are used.

IN SPECIFYING BLOCK manufactured by us you can do so with the knowledge that they meet all requirements for sound construction. We will be glad to discuss your plans with you and give you the benefit of our experience. We pledge ourselves to always maintain the highest manufacturing standards so that our products will merit your approval.

This outstanding Book of Home Plans has been made available to you through the cooperation of the

BEssER MANUFACTURING COMPANY, ALPENA, MICHIGAN, U.S.A.

and ourselves.
